

Explanation of QAR

Right There! The answer is found in the text. The words in the question can usually be found in the same sentence with the answer. (Easiest - 1 pt)

Think & Search! The answer is in the text, but the words are probably not in the same sentence. You must read the text, look for ideas that you can put together, and think about what the author is saying. (Not too tough - 2 pts)

On Your Own! You must apply what you know and what you have learned to answer the question. (Most difficult - 4 pts)

Total 14 points.
