Description of Disease	An in-depth description of the disease. More than the following were provided in the prezi: causes, symptoms, diagnosis, treatment, prevention.	A very good description of the disease. All of the following were provided: causes, symptoms, diagnosis, treatment, prevention.	Some description of the disease. Three of the following were provided: causes, symptoms, diagnosis, treatment, prevention.	Very little discretion of the disease. Two of the following were provided: causes, symptoms, diagnosis, treatment, prevention.	Poor description of the disease. One or less of the following was provided: causes, symptoms, diagnosis, treatment, prevention.
Text Information	Text is 100% accurate. Information is up-to-date. All required information included.	Text is 90-99% accurate. One incorrect piece of information, or one requirement missing.	Text is 80-89% accurate. Two requirements inaccurate or missing.	Text is less than 80% accurate. More than two requirements inaccurate or missing.	Text is lacking in most of the requirements. Less than half of the information is accurate and/or confusing.
Graphics and Pictures	Graphics/pictures or video go well with text. Good mix of text and illustrations that are relevant and effective.	Graphics/illustrations go with over-all text, but either not enough, or too many detract from presentation. One item not relevant.	Too many pictures/graphics distract from text. Some pictures or graphics are not relevant to topic.	Minimal graphics/illustrations used and/or do not go with text.	No graphics or illustrations used at all.
Attractiveness and Appeal	The presentation has an exceptionally attractive format, is extremely well-organized, colorful, and very appealing	The presentation has an attractive format, is organized, and neat.	The presentation has an average format, mostly organized and neat.	The presentation has a confusing format, seems hastily thrown together.	The presentation is messy and confusing, distracting color (or lack of), a last minute effort.
Spelling and Writing	No spelling errors. Each section is clear and well explained. Grammar is correct.	Almost all sections are clear and well-defined. Minimal spelling and grammatical errors.	Several sections have some spelling and/or grammatical errors.	Less than half the sections are clear. Most sections have some spelling and/or grammatical errors.	Many spelling errors and grammatical errors detract from clarity of prezi.
Use of Prezi Features	Excellent use of Prezi features. Uses scale to emphasize, and focus on major ideas. Overview makes sense when zoomed out. Details are given in small size. A path is used to create a logical flow of ideas and images.	Very good use of Prezi features. Most features are used: - scale to focus on main ideas - clear overview when zoomed out - details revealed by zooming in - path works and is logical	Good use of Prezi features. Most features are used: - scale to focus on main ideas - clear overview when zoomed out - details revealed by zooming in - path works and is logical	Minimal or ineffective use of Prezi features.	No use of Prezi features.
