<http://animals.nationalgeographic.com/animals/reptiles/alligator-snapping-turtle/>

http://www.texasurtles.org/Macrochelys_temminckii.html

A large group of sea turtles, likely leatherbacks, are gathered on a sandy beach at sunset. The turtles are dark in color, and their shells are visible. They are scattered across the beach, some in the shallow water and some on the sand. The background shows a soft, orange glow from the setting sun, creating a serene and naturalistic scene.

World Turtle Day
is May 23rd!!!!!!!
